# Pimentel to testify for Erap

By Nelson F. Flores

**OPPOSITION** Sen. Aquilino Pimentel Jr. is set to testify for deposed President Joseph Estrada to bolster claims by the former leader's camp that the multimillion-peso plunder charges were politically motivated, defense lawyer Jose Flaminiano said yesterday.

Flaminiano said Pimentel's testimony would compliment a declaration by former Chief Justice Andres Narvasa the other day before the Sandiganbayan's Special Division that President Macapagal-Arroyo had tried but failed to convince Estrada to go into voluntary exile abroad.

Ms Arroyo's offer, Narvasa said, was made through former Justice Secretary Hernani Perez after Estrada was ousted from power in 2001 in exchange for criminal immunity.

Narvasa added that Ms Arroyo had also asked Estrada to submit his resignation letter and a medical certificate attesting his need for medical treatment.

Flaminiano said that Ms Arroyo's attempt to strike a deal with Estrada only indicated that the former leader was not guilty.

"Estrada could have just left to avoid humiliation of being hauled in court but he did not," Flaminiano said.

Flaminiano also assailed Special Prosecutor Dennis Villa-Ignacio for saying that the defense panel was running out of witnesses. "He (Villa-Ignacio) should stop demeaning the defense panel by making it appear that we no longer have any witnesses to present."

Villa-Ignacio said in an earlier interview that Narvasa's testimony was irrelevant to the plunder and perjury charges filed against Estrada.

7th Week in Ordinary Time

1st Reading: Sir 6:5-17

Gospel: Mark 10:1-12

Jesus left Capernaum and went to the province of Judea, beyond the Jordan River. Once more crowds gathered around him and once more he taught them, as he always did. Some (Pharisees came and) put him to the test with this question, "Is it right for a husband to divorce his wife?" He replied, "What law did Moses give you?" They answered, "Moses allowed us to write a certificate of dismissal in order to divorce."

Then Jesus said to them, "Moses wrote this law for you, because you are stubborn. But in the beginning of creation God made them male and female, and because of this, man has to leave father and mother and be joined to his wife, and the two shall become one body. So they are no longer two but one body. Therefore let no one separate what God has joined."

When they were indoors at home, the disciples again asked him about this and he told them, "Whoever divorces his wife and marries another commits adultery against his wife, and the woman who divorces her husband and marries another also commits adultery."

### Commentary

*Wherever Jesus goes, the crowds of those in need, searching and wanting follow him, and so do the leaders and teachers looking for a way to trap him. This time, the question is: is it right for a husband to divorce his wife? They know the answer—no divorce according to Moses' law, but divorce is practiced and allowed—but only for the husband to divorce his wife, not the wife to divorce her husband. Jesus is angry and says that they know the law but the law accommodated their weakness and sin because they were stubborn and hard of heart, but that doesn't change the law. Later, when the disciples want to know, Jesus equalizes both husband and wife—whoever divorces the other commits adultery, is unfaithful to the spouse. You cannot use the law on one of the two and not on the other and the law must be honored as defending faithfulness while we must admit that we fail and sin against God and one another. It all begins with the truth. All of our lives need to be looked at with truthfulness.*

**Abstract**—The authors describe the development of a new, comprehensive, and integrated system of information management for the National Health and Medical Research Council (NH&MRC) of Australia. The system is designed to support the NH&MRC's research, training, and public health activities. It is a comprehensive system that integrates all of the NH&MRC's information resources, including its research, training, and public health activities. The system is designed to be a single source of information for all of the NH&MRC's activities. It is a comprehensive system that integrates all of the NH&MRC's information resources, including its research, training, and public health activities. The system is designed to be a single source of information for all of the NH&MRC's activities.

## Sullied and surly

**S**ullied and surly, the two words that best describe the state of the Philippines are the ones that come to mind when I think of the country. The word "sullied" means "stained" or "soiled," and the word "surly" means "ill-humored" or "crossed."

### Editorial

After a long and arduous journey, the Philippines has finally reached the shore of peace. The country is now a land of peace and tranquility, and the people are happy and content. The word "sullied" means "stained" or "soiled," and the word "surly" means "ill-humored" or "crossed."

The Philippines is a beautiful country with a rich and diverse culture. The people are friendly and hospitable, and the country is a land of peace and tranquility. The word "sullied" means "stained" or "soiled," and the word "surly" means "ill-humored" or "crossed."

## Coups and harrowing slice

## DOTC chief needs to smell the smoke

As the DOTC chief, you need to smell the smoke. The DOTC is the only agency in the world that is not a part of the federal government. It is a private, non-profit organization that is not subject to the same oversight and accountability as the federal government. This is a major problem, and it needs to be fixed. The DOTC should be brought under the same oversight and accountability as the federal government. This will ensure that the DOTC is operating in the best interests of the public and that it is not wasting taxpayer money.

### View Point

The DOTC is a private, non-profit organization that is not subject to the same oversight and accountability as the federal government. This is a major problem, and it needs to be fixed. The DOTC should be brought under the same oversight and accountability as the federal government. This will ensure that the DOTC is operating in the best interests of the public and that it is not wasting taxpayer money.

## On abolishing the MMDA

### Vote on the MMDA

The MMDA is a major problem for the DOTC. It is a private, non-profit organization that is not subject to the same oversight and accountability as the federal government. This is a major problem, and it needs to be fixed. The DOTC should be brought under the same oversight and accountability as the federal government. This will ensure that the DOTC is operating in the best interests of the public and that it is not wasting taxpayer money.

### At the end of the road

The DOTC is a private, non-profit organization that is not subject to the same oversight and accountability as the federal government. This is a major problem, and it needs to be fixed. The DOTC should be brought under the same oversight and accountability as the federal government. This will ensure that the DOTC is operating in the best interests of the public and that it is not wasting taxpayer money.

# Use of fake quarry receipts confirmed

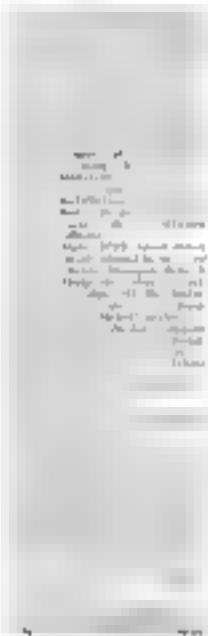

By Bureau Staff

MANILA, Philippines — The use of fake quarry receipts to circumvent environmental regulations has been confirmed by the Department of Environment and Natural Resources (DENR) in a recent investigation.

The DENR, in a report released last week, stated that it had uncovered a network of individuals and companies that had been using fake receipts to illegally extract and transport quarry materials. The report also noted that the fake receipts had been used to bypass the required permits and fees for quarrying activities.

The DENR said that the fake receipts had been used to transport quarry materials from the quarry sites to the processing areas, where they were then sold to construction companies and other buyers. The report also noted that the fake receipts had been used to bypass the required permits and fees for quarrying activities.

# AEV eyes Mirant, Kepco for coal plant

By Clarence S. Sison

ABOVE: Aselec Ventures is considering taking in Mirant Philippines Corp. and Kepco Electric Power Co. as strategic partners in a 300-megawatt coal-fired electric plant in Cebu.

AEV president and chief executive officer Joel Abolde Abula said in a recent meeting that the company would invest between \$300 and \$500 million in the next three years to build up three new power plants in Cebu and Davao.

"We have told Mirant and Kepco about the coal plant. We will link up the 300-MW coal project with the company president.

The coal plant is expected to be set stream before 2008.

He said the company wanted to build new power plants in anticipation of a projected power shortage in the Visayas and Mindanao starting 2008.

In Davao, he said Abolde would build two new hydroelectric plants with a combined capacity of 70 MW.

Abolde said the group would likely build its own hydro plants in Davao given the company's expertise in mini hydroelectric projects.

He said the company would sell part of its \$90 million treasury shares to help finance the power plans.

Power accounts for 55 percent of the revenue of the listed company, followed by banking with 18 percent.

AEV grew its profits by 45 percent in the first quarter to P526 million.

Investment Fund	UNIT PRICES (in P100)	
	Mar 14, 2006	May 9, 2006

„HILF MIT“ ist ein Projekt von Bundesjugendkassen und dem Deutschen Jugendring. Es wird von Bundesjugendkassen e.V. (HilfMit.de) koordiniert.

[illegible][illegible][illegible]

1. **Identify the problem.** The first step is to identify the problem. This involves understanding the situation and the needs of the people involved.

2. **Generate ideas.** The second step is to generate ideas. This involves brainstorming and coming up with as many solutions as possible.

3. **Evaluate ideas.** The third step is to evaluate ideas. This involves comparing the ideas and choosing the best one.

4. **Implement the solution.** The fourth step is to implement the solution. This involves putting the chosen idea into action.

5. **Evaluate the results.** The fifth step is to evaluate the results. This involves checking to see if the solution worked and if it met the needs of the people involved.

[illegible]

A collage of various logos and brand names, including Ford, Chevrolet, Dodge, and others, arranged in a grid-like fashion.

# Tall and tan and young

**By Jim LamPERT**  
 High heels, tights and a thin bikini suit the tall, slender models who strutted down the runway at the recent Philippine Fashion Week. But what if you wanted to look like them?

The first step is to get the most out of your body. That means you should find a professional body coach to help you maximize your body's potential. And if you are already thin, you should find a professional body coach to help you maximize your body's potential.

**Care prepared**  
 It is not a pleasant surprise to find out that the models who strutted down the runway at the recent Philippine Fashion Week were not just tall and thin, but also very healthy. They had a diet and exercise routine that was tailored to their bodies. And if you are already thin, you should find a professional body coach to help you maximize your body's potential.

**Body type**  
 "If you are not already very thin, you should find a professional body coach to help you maximize your body's potential. And if you are already thin, you should find a professional body coach to help you maximize your body's potential."

For those who are not already very thin, the first step is to get the most out of your body. That means you should find a professional body coach to help you maximize your body's potential. And if you are already thin, you should find a professional body coach to help you maximize your body's potential.

Next, you should find a professional body coach to help you maximize your body's potential. And if you are already thin, you should find a professional body coach to help you maximize your body's potential.
